THE HONORABLE FIFE SYMINGTON

Governor of the State of Arizona
and

MEMBERS OF THE FORTY-THIRD LEGISLATURE

On behalf of the Arizona Board of Executive Clemency, I have the honor of submitting this report covering the period July 1, 1993 through June 30, 1995. It has been a challenging time, with new legislature and a larger number of scheduled hearings.

The major impact on the Board's hearing schedule during the last six months of the reporting period was due to Disproportionality Review. These hearings will continue through December, 1995. Despite the increased workload, the Board has successfully met all statutory requirements. The implementation of Structured Decision Making guidelines has provided a means for greater consistency in Board decisions, and the creation of an automated information system has given the Board the ability to monitor hearing trends.

The Arizona Board of Executive Clemency has operated with the mission of assuring public safety. Each Board member has attended the New Board Member Training provided by the National Institute for Corrections in Boulder, Colorado early in their tenure. This allowed an opportunity to share information with other professionals in the field.

Respectfully submitted,

A handwritten signature in black ink that reads "Duane Belcher, Sr."

Duane Belcher, Sr.
Chairman

MISSION STATEMENT

The mission of the Arizona Board of Executive Clemency is to assure public safety by releasing only those eligible inmates who appear not to pose a threat to society and send to the Governor only those Executive Clemency recommendations which are in the best interest of the citizens of Arizona.

HISTORY OF THE ARIZONA BOARD OF EXECUTIVE CLEMENCY

Change and adaptation best characterize the history of the Arizona Board of Executive Clemency. The state of Arizona first afforded inmates the opportunity for parole in 1901. The **Board of Control** functioned as the state's discretionary releasing mechanism and consisted of the Governor; Territorial Auditor; and one citizen appointed by the Governor. The **Board of Control** retained its releasing authority until the first Criminal Code became effective in October of 1913.

In 1913, the Legislature established the **Board of Pardons and Paroles**, which assumed the discretionary releasing function of its predecessor, the Board of Control. Board membership consisted of a citizen appointed by the Governor to serve as Board chairperson; the Superintendent of Public Instruction; and the Attorney General. Board composition remained unchanged for the next five decades.

The Legislature expanded Board membership to five part-time members in 1966. The Governor appointed all members to five-year terms. In 1968, the Legislature amended this expansion and created a Board comprised of three full-time members. The Governor appointed all members to three-year terms. All appointments, however, became subject to Senate confirmation. A full decade passed before the Board experienced change in its composition.

In 1978, the Legislature increased Board size to five full-time members. The Governor appointed all members to five-year terms, and appointments remained subject to Senate confirmation. This legislative action coincided with the passage of the new Criminal Code.

The Legislature again expanded Board membership to seven full-time members in 1984. This figure represents the number of members who currently sit on the Board. The Governor continues to appoint all members to five-year staggered terms. All appointments remain subject to Senate confirmation.

In 1993, legislation passed which eliminated all Board releases for inmates whose offense was committed after January 1, 1994. In addition, the Board's name changed from **Board of Pardons and Paroles** to the **Board of Executive Clemency**.

Arizona Revised Statutes §31-401 and subsequent sections detail the operating authority and duties of the Arizona Board of Executive Clemency.

**Board Members for the Period
July 1, 1993 - June 30, 1995**

PAROLE GUIDELINES AND STRUCTURED DECISION MAKING

Pursuant to a recommendation by the Auditor General's Office in 1991, the Arizona Board of Pardons and Paroles applied for and received a grant from the National Institute of Corrections to develop guidelines that reflect a more structured decision making process. During the past two and one-half years, the Board has conducted extensive research and drawn on the experience of numerous experts to lay the foundation for this new decision making process. The Board formally adopted and implemented Structured Decision Making (SDM) on July 1, 1993.

Structured Decision Making involves the development of guidelines that provide the Board with a common framework in which to make decisions. SDM guidelines consist of explicitly stated goals; policy statements; and measurement instruments designed to systematically assess an inmate's suitability for release. Risk Assessment and Offense Severity function as two of the core components of SDM.

I. Risk Assessment

The risk assessment component assesses the likelihood that an inmate may commit a new felony offense while on a Board release. While no Board member or measurement instrument can predict an inmate's future behavior with total confidence, the best measure of the future still remains the past. As such, the Board conducted a study on 1988 releases to identify those factors predictive of success or failure on release. Four factors emerged as significant predictors of success or failure. These factors include:

- (1) Age at First Juvenile Incarceration
- (2) Current Age at Time of Hearing
- (3) History of Property Offenses
- (4) ADOC Institutional Risk Score

The combination of these factors results in a score that indicates an inmate's likelihood to commit a new offense once released. The higher the risk score, the greater the likelihood to re-offend. Board analysts score inmates for risk and place them into one of four risk assessment groups.

II. Offense Severity

The offense severity component involves an initial determination of an inmate's most serious offense behavior, and the subsequent placement of this offense behavior into one of eight severity levels. The most serious offense behavior reflects what the offender actually did. Board analysts determine the most serious offense behavior based on official documents. Official documents include pre-sentence investigation reports; police reports; court documents; and any additional probation/parole officer reports. The Board however, makes the ultimate determination of the most serious offense behavior. Inmates will have the opportunity to provide information as it pertains to the most serious offense behavior.

After considerable discussion, the Board reached a consensus on the placement of offense behaviors into eight severity levels. Level of victimization and amount of property or drugs involved in the offense functioned as primary criteria for the ranking of offense behaviors.

Severity level 1 contains the most serious offense behaviors and severity level 8 contains the least serious offense behaviors. Board analysts locate the corresponding severity level for the most serious offense behavior.

Board analysts then enter the risk assessment group and the offense severity level on the Guidelines Classification Matrix. Each cell on the matrix contains a percentage that Board analysts apply to the conviction sentence length. They use this percentage to calculate the amount of additional time, if applicable, an inmate may need to serve beyond his or her release eligibility date to be within the SDM recommended time frame for release.

The Board uses SDM guidelines for all hearings except for revocation and rescission hearings; Executive Clemency recommendations; those inmates whose most serious offense behavior or conviction offense is of a sexual nature; and those inmates whose conviction offenses include first or second degree murder (A.R.S. §13-1105 and 13-1104, respectively).

PRESENT OPERATIONS OF THE BOARD ENACTED BY SB1250 DISPROPORTIONALITY REVIEW

In 1994, legislation was enacted requiring the Board to review the sentence of inmates who are incarcerated under the jurisdiction of the state department of corrections and whose felony offense was committed on or before December 31, 1993.

Inmates who are incarcerated under the jurisdiction of the state Department of Corrections must meet all of the initial eligibility requirements set forth in laws 1994, Chapter 365, §1.

Once eligibility has been determined, the hearings are conducted in two phases. The Chairman may prescribe that the two phases be combined in a single hearing.

Phase I is conducted *in absentia* and the Board's consideration is limited to a determination of whether the sentence imposed is "clearly excessive."

Phase II is conducted at a personal or telephonic hearing. The Board reviews all relevant information and determines whether to recommend a Commutation of Sentence to the Governor.

As of June 30, 1995, the Board of Executive Clemency has scheduled and conducted hearings for a total of 836 inmates. From this total number of inmates heard, 144 inmates have been recommended to the Governor for Commutation of Sentence.

The Board of Executive Clemency shall complete all scheduled hearings by December 31, 1995.

TYPES OF HEARINGS CONDUCTED BY THE BOARD

GENERAL PAROLE (A.R.S. §31-412.A) A conditional release from incarceration which entitles the parolee to serve the remainder of his term outside the confines of a penal institution if he satisfactorily complies with all the terms and conditions provided in the parole order.

PAROLE TO A CONSECUTIVE SENTENCE OR ANOTHER JURISDICTION (A.R.S. §31-412.B) A mechanism to parole an inmate to a consecutive sentence to be served in an institution or parole to another jurisdiction.

EARLY PAROLE (A.R.S. §41-1604.11.K) A conditional release from incarceration before the inmate has reached his general parole eligibility date. This type of release consideration is used when there is a lack of bed space within the Department of Corrections' institutions. An inmate eligible for release under this statute may be considered for parole, home arrest or work furlough.

HOME ARREST (A.R.S. §41-1604.13) A program for those inmates who are eligible to complete their prison sentence in the community. The Home Arrest program is a restrictive program designed to confine an inmate to his residence using active electronic monitoring surveillance and the supervision of a Home Arrest officer. A person in the Home Arrest Program is under inmate status and subject to all of the rules and regulations of the Department of Corrections. Except for authorized movements out of the residence, such as employment and mandated treatment programming, the inmate is confined to his residence.

WORK FURLough (A.R.S. §41-1604.11) A release from the prison which allows the inmate to maintain gainful employment and pay restitution to the victim of his offense.

ABSOLUTE DISCHARGE FROM PAROLE (A.R.S. §31-414) The Board may discharge a person from parole supervision prior to the expiration date of the parole pursuant to A.R.S. §31-414. Generally, the Parole Division of the Department of Corrections recommends the discharge to the Board because of exceptional performance while on supervision.

PARDON (A.R.S. §31-441, 31-442, 31-443, 31-444, 31-445, 31-446) An act of grace or a remission of guilt, which absolves the convicted felon of the legal consequences of his crime and conviction. A full pardon restores those civil rights which may have been lost as a result of the conviction for which the pardon is granted. A pardon cannot be granted by the Governor unless it has first been recommended by the Board (A.R.S. §31-402).

REPRIEVE (A.R.S. §31-443, 31-444, 31-445, 31-446) A delay or temporary suspension of the carrying out of punishment. The Governor may only grant a reprieve upon recommendation of the Board (A.R.S. §31-402).

COMMUTATION OF SENTENCE (A.R.S. §31-411, 31-443, 31-445, 31-446) A change or modification of a sentence imposed by the court. The Board assumes that sentences imposed by the court are fair and correct. However, sometimes circumstances occur during incarceration which indicate that justice would be better served if a commutation were recommended to the Governor. The Governor may only grant a commutation of sentence upon recommendation by the Board (A.R.S. §31-402).

RESCISSION a withdrawal of an action previously granted by the Board before the inmate actually enters the action status.

REVOCATION (A.R.S. §31-415, 31-416, 31-417) A withdrawal of a release status after the inmate has entered the action status.

MODIFICATION A hearing held to determine if conditions of release should be modified or changed. A modification hearing is usually held at the request of a parole officer.

DISPROPORTIONALITY REVIEW (41st Legislature, SB1250, Ch. 365, §1) A disproportionality review of inmates who are incarcerated under the jurisdiction of the state Department of Corrections and who meet all initial eligibility requirements of this chapter. The Board of Executive Clemency shall complete all disproportionality reviews by December 31, 1995. This act is repealed June 30, 1996.

The Board used SDM in 79.3 percent of the hearings that resulted in grants. Of those releases granted that used SDM (3127 cases), 74.1 percent of the decisions fell within and 25.9 percent fell outside the guidelines.

The following page profiles the reasons offered by the Board when a decision to grant fell outside the guidelines. The Board used these reasons in various combinations. Some reasons occurred more frequently than others. This explains why the summation of these figures exceeds the actual # of releases granted outside the guidelines.

In addition to the reasons cited on page 16, the Board offered the following reasons:

Parole granted to tried detainee
Improved institutional behavior since last hearing

Inmate seems to be maturing

Inmate shows remorse

Inmate received all good time credits back from BOC

Inmate appears to be moving in the right direction

Further incarceration would be ineffective

Facing a long consecutive sentence

Has performed well on prior supervision plan

Strong mental health/substance abuse plan

Inmate verbal about lessons learned during incarceration

Length of sentence paroled to

Parents' health issues

Has stomach cancer

Recommendation of DOC staff

Plans to obtain long-term substance abuse treatment

Society better served if supervised rather than ERCD release

Family needs inmate

Inmate never previously afforded opportunity for supervision

No/limited criminal history

Family members' health issues

Recommendation of DOC staff

Long-standing substance abuse problem - needs long-term treatment

Turned self in on probation violation

Long sentence of 8 years to begin

Grant due to psychological considerations

Expresses maturity/accepts responsibility since incarcerated

Has served 7 out of 10 year sentence for sale of \$150 worth of drugs

Mental health needs benefit from closer supervision

Release to treatment program/half-way house benefit society

Inmate to be deported

Good work skills

Positive strides in treatment

Previous 412A grant to CA - placement not secured with father

Going to another longer sentence/jurisdiction (USMS detainer)

Highly recommended by DOC staff - statewide driver

Continued in-patient program for substance abuse problems

Long sentence and time incarcerated

Released to in-patient substance abuse program

To Florida detainee/other detainee

DOC administrative release (TR) in two months

Accepts responsibility for behavior

Granted to consecutive sentence

Left alone at age 15 to fend for self

Has overcome many mental health problems

Excellent job application

Mother involved in this crime

Good background in education and good goals

Limited criminal history

Revoked for prescription drugs that were his

Has some mental problems

Good work evaluations

Good attitude turn around/has made conscious effort to change thinking

Has worked as statewide driver for 3+ years without incident

The following pages profile the reasons offered by the Board when a decision to deny fell outside the guidelines. The Board used these reasons in various combinations. Some reasons occurred more frequently than others. This explains why the summation of these figures exceeds the actual number of releases denied outside the guidelines.

In addition to the reasons cited on page 20, the Board offered the following reasons:

- Continued substance abuse problem
 - Poor risk to community
 - Violated previous release
 - Committed new felony while incarcerated/on parole/probation/absconder status
 - Illegally entered U.S. to commit crimes
 - Serious and violent offense
 - Already granted another type of release
 - Involved in illegal drug trade/dealings
 - No remorse
- Pending write-up/poor institutional behavior
 - Weapon used during commission of offense/weapons misconduct
 - Has committed similar offenses elsewhere in U.S.*
 - Poor/no release plan
 - Unresolved deviant behavior towards CSD
 - Violated position of trust
 - Assaultive behavior
 - Unresolved mental health issues
 - Poor attitude
 - Escapes history
 - Has not accepted responsibility for actions*
 - Needs additional substance abuse/mental health counseling
 - Involved in organized gang activity in community
 - Uncooperative during hearing
 - Recent violation/revocation of community release
 - Offense committed for pecuniary gain
 - Repetitive nature of offense
 - Extensive criminal history (juvenile to adult; # prior incarcerations)
 - Not benefitted from previous lenient treatment by courts
- Offense involved family members/minors
 - Short period of incarceration would minimize offense severity
 - Supported family for 13 years with criminal activity
 - Serious and violent/deviant offense
 - Assault on pregnant woman
 - Needs long-term substance abuse program
 - Weapon used during commission of offense
 - Assumes no responsibility for substance abuse problem
 - Has not benefitted from past rehabilitative efforts
- Serious financial loss to victims
 - Previous DUI resulted in person's death
 - Violated position of trust
 - Poor performance on pre-trial release
 - Unresolved mental health issues
 - Victim opposition
 - Previously escaped from DOC
 - Would benefit from closer supervision
 - Drug smuggler
 - Bond/bail jumper to avoid prosecution
 - Waived other more restrictive release types
 - No programming
 - Release now would minimize offense severity
 - Will go out on provisional release

Unable to work due to medical condition

Extensive arrest history

Institutional file indicates disregard for authority figures

Pending write-up(s)

Offense behavior poses risk to community

Deviant offense

Extensive prison/criminal history

Current sentence ends 06/94

Criminal behavior now incorporates use of inmate's children

Repetitive offender - disregard for others' property

Assumes no responsibility for actions

On juvenile parole at time of instant offense

Significant monetary loss to community - victim trauma

Needs long-term drug treatment

History of drugs/weapons - weapons infatuation

Serious nature of offense - involved high-speed chase in two states

Operated drug lab - resulting activity contributing to death of person

Failure to complete SHOCK

Assaultive nature of instant offense

Offense was drive-by shooting

Request DOC begin rescission for previously granted HA

Disrespectful towards Board members at end of hearing

Serious mental health problems which created explosive outbursts

Serious crime - deliberately set fire to structure

Pending trial for child molestation and sexual conduct with a minor

Reaffirm previous WF grant

Loss of human life

Offense occurred after recent prison release

Gang-related crime

In possession of a loaded firearm while on probation

Involved in attempted theft of \$1.8 million in state monies

Seriously assaulted officer in 09/93

Unresolved sexual deviancy issues

Committed new felony while on Juvenile or Adult Probation, or Court Release

On life sentence when committed new crimes

Involved in large drug smuggling operations/weapons involvement

History of absconding

Home Arrest release pending

Involved in gang activity on high school campus

Severe deviant thoughts about abusing women

History of assaultive behavior directed at women

Committed offense for pecuniary gain

Wants out of state placement

Extensive criminal history as a juvenile

Needs to complete pride program

Two prior U.S. prison terms

Absconded AZ court release and committed additional DUI in other state

Continues to violate court orders while incarcerated

History of failure on prior supervised releases

The Board rendered decisions and set conditions of supervision for 69.2 percent of the hearings scheduled during fiscal year 1994-95. Of those hearings held that required a decision (950 cases), 46.0 percent of the decisions resulted in grants and 54.0 percent of the decisions resulted in denials. Please note that hearings held to set the conditions of community supervision for "Truth-In-Sentencing" inmates do not require the Board to render a decision. Calculations for grant and denial percentages therefore, exclude these hearings.

The Board used Structured Decision Making (SDM) in 78.2 percent of the hearings held that required a decision. Of those hearings held that used SDM (7431 cases), 57.8 percent of the decisions fell within and 42.2 percent of the decisions fell outside the guidelines.

Non-reversion hearings accounted for 92.9 percent of hearings held that required a decision. Of those non-reversion hearings held (8627 cases), 43.0 percent of the decisions resulted in grants (3799 cases) and 57.0 percent resulted in denials (5028 cases). Non-reversion hearings exclude hearings held to set the conditions of community supervision for "Truth-In-Sentencing" inmates and the following institutions: Board Review, HA/N, WF/N, SR/N, HA/S, WF/S, SR/S.
