The Arizona Board of Pardons and Paroles has experienced an active and challenging year. The expanding prison population coupled with the fiscal constraints of the current State budget have added to the challenges we face. However, we have continued to strive for professional excellence and to meet all statutory requirements set forth for this Board.

To successfully manage these challenges, we are keenly aware that our success is tied directly to your support and it is that support which has allowed this organization to carry out its responsibilities.

On behalf of the Arizona Board of Pardons and Paroles, I have the honor of submitting this annual report for Fiscal Year 1992-1993.

Respectfully Submitted,

HISTORY OF THE ARIZONA BOARD OF PARDONS AND PAROLES

Change and adaptation best characterize the history of the Arizona Board of Pardons and Paroles. The state of Arizona first afforded inmates the opportunity for parole in 1901. The **Board of Control** functioned as the state's discretionary releasing mechanism and consisted of the Governor; Territorial Auditor; and one citizen appointed by the Governor. The Board of Control retained its releasing authority until the first Criminal Code became effective in October of 1913.

In 1913, the Legislature established the **Board of Pardons and Paroles**, which assumed the discretionary releasing function of its predecessor, the Board of Control. Board membership consisted of a citizen appointed by the Governor to serve as Board chairperson; the Superintendent of Public Instruction; and the Attorney General. Board composition remained unchanged for the next five decades.

The Legislature expanded Board membership to five part-time members in 1966. The Governor appointed all members to five year terms. In 1968, the Legislature amended this expansion and created a Board comprised of three full-time members. The Governor appointed all members to three year terms. All appointments however, fell subject to Senate confirmation. A full decade passed before the Board experienced change in its composition.

In 1978, the Legislature increased Board size to five full-time members. The Governor appointed all members to five year terms, and appointments remained subject to Senate confirmation. This legislative action coincided with the passage of the new Criminal Code.

The Legislature again expanded Board membership to seven full-time members in 1984. This figure represents the number of members who currently sit on the Board. The Governor continues to appoint all members to five year staggered terms. All appointments remain subject to Senate confirmation.

Arizona Revised Statutes §31-401 and subsequent sections detail the operating authority and duties of the Arizona Board of Pardons and Paroles.

MISSION STATEMENT

The mission of the Arizona Board of Pardons and Paroles is to assure public safety by releasing only those eligible inmates who appear not to pose a threat to society and send to the Governor only those Executive Clemency recommendations which are in the best interest of the citizens of Arizona.

PAROLE GUIDELINES AND STRUCTURED DECISION MAKING

Pursuant to a recommendation by the Auditor General's Office in 1991, the Arizona Board of Pardons and Paroles applied for and received a grant from the National Institute of Corrections to develop guidelines that reflect a more structured decision making process. During the past two and one half years, the Board has conducted extensive research and drawn on the experience of numerous experts to lay the foundation for this new decision making process. The Board formally adopted and implemented **Structured Decision Making (SDM)** on July 1, 1993.

Structured Decision Making involves the development of guidelines that provide the Board with a common framework within which to make decisions. SDM guidelines consist of explicitly stated goals; policy statements; and measurement instruments designed to systematically assess an inmate's suitability for release. **Risk Assessment** and **Offense Severity** function as two of the core components of SDM.

I. Risk Assessment

The **risk assessment** component assesses the **likelihood** that an inmate **may** commit a new felony offense while on a Board release. While no Board member or measurement instrument can predict an inmate's future behavior with total confidence, the best measure of the future still remains the past. As such, the Board conducted a study on 1988 releases to identify those factors predictive of success or failure on release. Four factors emerged as significant predictors of success or failure. These factors include:

- (1) Age at First Juvenile Incarceration
- (2) Current Age at Time of Hearing
- (3) History of Property Offenses
- (4) ADOC Institutional Risk Score

The combination of these factors results in a score that indicates an inmate's **likelihood** to commit a new offense once released. The higher the risk score, the greater the likelihood to reoffend. Board analysts will score inmates for risk and place them into one of four risk assessment groups.

II. Offense Severity

The **offense severity** component involves an initial determination of an inmate's **most serious offense behavior**, and the subsequent placement of this offense behavior into one of eight severity levels. The most serious offense behavior reflects what the offender actually did. Board analysts will determine the most serious offense behavior based on **official** documents that depict the **actual** offense behavior. Official documents include pre-sentence investigation reports; police reports; court documents; and any additional probation/parole officer reports.

After considerable discussion, the Board reached a consensus on the placement of offense behaviors into eight severity levels. Level of victimization and amount of property or drugs involved in the offense functioned as primary criteria for the ranking of offense behaviors. Severity level 1 contains the most serious offense behaviors and severity level 8 contains the least serious offense behaviors. Board analysts will locate the corresponding severity level for the most serious offense behavior depicted.

Board analysts will enter the risk assessment group and the offense severity level on the **Guidelines Classification Matrix**. Each cell on the matrix contains a percentage that Board analysts will apply to the conviction sentence length. They will use this percentage to calculate the amount of additional time, if applicable, an inmate may need to serve beyond his or her release eligibility date to be within the SDM recommended time frame for release.

The Board will use SDM guidelines for all hearings except for revocation and rescission hearings; Executive Clemency recommendations; those inmates whose offense behavior or conviction offense is of a sexual nature; and those inmates whose conviction offenses include first or second degree murder (A.R.S. §13-1105 and 13-1104, respectively).

TYPES OF HEARINGS CONDUCTED BY THE BOARD

GENERAL PAROLE (A.R.S. §31-412.A) A conditional release from incarceration which entitles the parolee to serve the remainder of his term outside the confines of a penal institution if he satisfactorily complies with all the terms and conditions provided in the parole order.

PAROLE TO A CONSECUTIVE SENTENCE OR ANOTHER JURISDICTION (A.R.S. §31-412.B) A mechanism to parole an inmate to a consecutive sentence to be served in an institution or parole to another jurisdiction.

PAROLE DUE TO A LACK OF PRISON BED SPACE (A.R.S. §31-233.J) A conditional release from incarceration before the inmate has reached his general parole eligibility date. This type of release consideration is used when there is a lack of bed space within the Department of Corrections institutions. An inmate eligible for release under this statute may be considered for parole, home arrest or work furlough.

HOME ARREST (A.R.S. §31-236) A program for those inmates who are eligible to complete their prison sentence in the community. The Home Arrest program is a restrictive program designed to confine an inmate to his residence using active electronic monitoring surveillance and the supervision of a Home Arrest officer. A person in the Home Arrest Program is under inmate status and subject to all of the rules and regulations of the Department of Corrections. Except for authorized movements out of the residence, such as employment and mandated treatment programming, the inmate is confined to his residence.

WORK FURLOUGH (A.R.S. §31-233.C) A release from prison which allows the inmate to maintain gainful employment and pay restitution to the victim of his offense.

ABSOLUTE DISCHARGE (A.R.S. §31-414) The Board may discharge a person from parole supervision prior to the expiration date of the parole pursuant to A.R.S. §31-414. Generally, the Parole Division of the Department of Corrections recommends the discharge to the Board because of exceptional performance while on supervision.

PARDON (A.R.S. §§31-441, 31-442, 31-443, 31-444, 31-445, 31-446) An act of grace or a remission of guilt, which absolves the convicted felon of the legal consequences of his crime and conviction. A full pardon restores those civil rights which may have been lost as a result of the conviction for which the pardon is granted. A pardon cannot be granted by the Governor unless it has first been recommended by the Board (A.R.S. §31-402).

REPRIEVE (A.R.S. §§31-443, 31-444, 31-445, 31-446) A delay or temporary suspension of the carrying out of a punishment. The Governor may only grant a reprieve upon recommendation of the Board (A.R.S. §31-402).

COMMUTATION OF SENTENCE (A.R.S. §§31-411, 31-443, 31-445, 31-446) A change or modification of a sentence imposed by the court. The Board assumes that sentences imposed by the court are fair and correct; however, sometimes circumstance occur during incarceration which indicate that justice would be better served if a commutation were recommended to the Governor. The Governor may only grant a commutation of sentence upon recommendation of the Board (A.R.S. §31-402).

RESCISSION A withdrawal of an action previously granted by the Board before the inmate actually enters the action status.

REVOCATION (A.R.S. §§31-415, 31-416, 31-417) A withdrawal of an action previously granted by the Board after the inmate has entered the action status.

MODIFICATION A hearing held to determine if conditions of release should be modified or changed. A modification hearing is usually held at the request of a parole officer.

AN EXPLANATORY NOTE:

This report represents all Board activity for the period from July 1, 1992 through June 30, 1993. This report also represents the union of two different data collection methods. Categories of certain variables, such as those for **HEARING TYPE** and **CERTIFICATION TYPE**, have been consolidated into more general categories to accommodate the different data collection methods. These categories, though more general when compared with previous monthly reports, preserve the accuracy and integrity of all data collected.
