## ARIZONA BOARD OF EXECUTIVE CLEMENCY

1645 WEST JEFFERSON SUITE 326 PHOENIX, ARIZONA 85007 (602) 542-5656 FAX (602) 542-5680

THE HONORABLE FIFE SYMINGTON

and

Governor of the State of Arizona

#### MEMBERS OF THE FORTY-THIRD LEGISLATURE

\*\*\*\*\*

The Arizona Board of Executive Clemency has for the first time in recent memory experienced a reduction of scheduled hearings conducted. However, during this same time the Board conducted hearings based on new legislation regarding "domestic violence" and prepared for future hearings regarding Proposition 200. Fiscal year 1996 - 1997 reflects a 28.59% decrease over fiscal year 1995 - 1996. This reduction was caused in part by the "truth in sentencing" legislation enacted in January, 1994.

Recognizing this decreased workload and projected future reductions of hearings, legislation was introduced and passed reducing the current Board from seven members to five effective January 19, 1998. Additionally, some staff positions will be eliminated.

While our hearings may have decreased our enthusiasm has not. Board members and staff continue to handle their responsibilities professionally. Their dedication, coupled with your support, has allowed the Board to continue operating with the mission of assuring public safety.

On behalf of the Arizona Board of executive Clemency, I have the honor of submitting this Annual Report for fiscal year 1996 - 1997.

Respectfully

Œdward Leyva,

#### MISSION STATEMENT

The mission of the Arizona Board of Executive Clemency is to assure public safety by releasing only eligible inmates and send to the Governor only those Executive Clemency recommendations which are in the best interest of the citizens of Arizona.

#### HISTORY OF THE ARIZONA BOARD OF EXECUTIVE CLEMENCY

Change and adaptation best characterize the history of the Arizona Board of Executive Clemency. The state of Arizona first afforded inmates the opportunity for parole in 1901. The **Board of Control** functioned as the state's discretionary releasing mechanism and consisted of the Governor; Territorial Auditor; and one citizen appointed by the Governor. The **Board of Control** retained its releasing authority until the first Criminal Code became effective in October of 1913.

In 1913, the Legislature established the **Board of Pardons and Paroles**, which assumed the discretionary releasing function of its predecessor, the Board of Control. Board membership consisted of a citizen appointed by the Governor to serve as Board chairperson; the Superintendent of Public Instruction; and the Attorney General. Board composition remained unchanged for the next five decades.

The Legislature expanded Board membership to five part-time members in 1966. The Governor appointed all members to five-year terms. In 1968, the Legislature amended this expansion and created a Board comprised of three full-time members. The Governor appointed all members to three-year terms. All appointments, however, became subject to Senate confirmation. A full decade passed before the Board experienced change in its composition.

In 1978, the Legislature increased Board size to five full-time members. The Governor appointed all members to five-year terms, and appointments remained subject to Senate confirmation. This legislative action coincided with the passage of the new Criminal Code.

The Legislature again expanded Board membership to seven full-time members in 1984. This figure represents the number of members who currently sit on the Board. The Governor continues to appoint all members to five-year staggered terms. All appointments remain subject to Senate confirmation.

In 1993, Legislation passed which eliminated all Board releases for inmates whose offense was committed after January 1, 1994. In addition, the Board's name changed from **Board of Pardons and Paroles** to the **Board of Executive Clemency**.

In 1997, Legislation passed which decreased the membership of the Board from seven to five members. This change will be effective in January, 1998.

Arizona Revised Statutes § 31-401 and subsequent sections detail the operating authority and duties of the Arizona Board of Executive Clemency.

#### Board Members for the Period July 1, 1995 - June 30, 1996

**DUANE BELCHER, SR.**, a resident of Tucson, Arizona, was appointed as Board Chairman in September 1993 and served in that capacity until February, 1997. Clerical Support Positions - The Clerical Support staff provide clerical support to the Board, Administrative Staff and Hearing Officer III positions, prepare packets the Board uses in making release decisions, complete dispositions and proclamations for decisions made by the Board and provide statutorily mandated notifications prior to Board hearings.

#### PAROLE GUIDELINES AND STRUCTURED DECISION MAKING

Structured Decision Making (SDM) involves the guidelines that provide the Board with a common framework in which to make decisions. SDM guidelines consist of explicitly stated goals; policy statements; and measurement instruments designed to systematically assess an inmate's suitability for release. Risk Assessment and Offense Severity function as two of the core components of SDM.

#### I. Risk Assessment

The **risk assessment** component assesses the **likelihood** that an inmate **may** commit a new felony offense while on a Board release. While no Board member or measurement instrument can predict an inmate's future behavior with total confidence, the best measure of the future still remains the past. As such, the Board conducted a study on 1988 releases to identify those factors predictive of success or failure on release. Four factors emerged as significant predictors of success or failure. These factors include:

- (1) Age at First Juvenile Incarceration
- (2) Current Age at Time of Hearing
- (3) History of Property Offenses
- (4) ADOC Institutional Risk Score

The combination of these factors results in a score that indicates an inmate's likelihood to commit a new offense once released. The higher the risk score, the greater the likelihood to re-offend. Board analysts score inmates for risk and place them into one of four risk assessment groups.

#### II. Offense Severity

The offense severity component involves an initial determination of an inmate's most serious offense behavior, and the subsequent placement of this offense behavior into one of eight severity levels. The most serious offense behavior reflects what the offender actually did. Board analysts determine the most serious offense behavior based on official documents that depict the actual offense behavior. Official documents include pre-sentence investigation reports; police reports; court documents; and any additional probation/parole officer reports. The Board, however, makes the ultimate determination of the most serious offense behavior. Inmates will have the opportunity to provide information as it pertains to the most serious offense behavior.

After considerable discussion, the Board reached a consensus on the placement of offense behaviors into eight severity levels. Level of victimization and amount of property or drugs involved in the offense functioned as primary criteria for the ranking of offense behaviors.

Severity level 1 contains the most serious offense behaviors and severity level 8 contains the least serious offense behaviors. Board analysts locate the corresponding severity level for the most serious offense behavior.

Board analysts then enter the risk assessment group and the offense severity level on the **Guidelines Classification Matrix**. Each cell on the matrix contains a percentage that Board analysts apply to the conviction sentence length. They use this percentage to calculate the amount of additional time, if applicable, an inmate **may** need to serve beyond his or her release eligibility date to be within the SDM recommended time frame for release.

The Board uses SDM guidelines for all hearings **except for** revocation and rescission hearings; Executive Clemency recommendations; those inmates whose offense behavior or conviction offense is of a sexual nature; and those inmates whose conviction offenses include first or second degree murder (A.R.S. §13-1105 and 13-1104, respectively).

## NEW LEGISLATION EFFECTING THE ARIZONA BOARD OF EXECUTIVE CLEMENCY

In 1996 HB 2283 Domestic Violence Review was enacted requiring the Board to review the sentence that was imposed on inmates who were involved in domestic violence situations and were convicted of a violation of title 13, chapter 11 before September 30, 1992.

Inmates who are incarcerated under the jurisdiction of the state department of corrections must meet all of the initial eligibility requirements set forth in laws 1996, Chapter 234, § 1 and law 1997, Chapter 212, § 1.

Once eligibility has been determined, the hearing is conducted and the Board determines whether to recommend a Commutation of Sentence to the Governor.

The Board of Exeucitve Clemency shall complete all reviews brought pursuant to these sections by June 30, 1998. Section 31-403, Arizona Revised Statutes, as added by section 1 of this act is repealed from and after December 31, 1998.

In the general election in 1996, proposition 200 was passed. In anticipation of this law coming into effect, planning meetings have been held with the Department of Corrections.

#### TYPES OF HEARINGS CONDUCTED BY THE BOARD

GENERAL PAROLE (A.R.S. §31-412.A) A conditional release from incarceration which entitles the parolee to serve the remainder of his term outside the confines of a penal institution if he satisfactorily complies with all the terms and conditions provided in the parole order.

PAROLE TO A CONSECUTIVE SENTENCE OR ANOTHER JURISDICTION (A.R.S. §31-412.B) A mechanism to parole an inmate to a consecutive sentence to be served in an institution or parole to another jurisdiction.

**EARLY PAROLE (A.R.S. §41-1604.11.K)** A conditional release from incarceration before the inmate has reached his general parole eligibility date. This type of release consideration is used when there is a lack of bed space within the Department of Correction's institutions. An inmate eligible for release under this statue may be considered for parole, home arrest or work furlough.

HOME ARREST (A.R.S. §41-1604.13) A program for those inmates who are eligible to complete their prison sentence in the community. The Home Arrest program is a restrictive program designed to confine an inmate to his residence using active electronic monitoring surveillance and the supervision of a Home Arrest officer. A person in the Home Arrest Program is under inmate status and subject to all of the rules and regulations of the Department of Corrections. Except for authorized movements out of the residence, such as employment and mandated treatment programming, the inmate is confined to his residence.

WORK FURLOUGH (A.R.S. §41-1604.11) A release from prison which allows the inmate to maintain gainful employment and pay restitution to the victim of his offense.

ABSOLUTE DISCHARGE FROM PAROLE (A.R.S. §31-414) The Board may discharge a person from parole supervision prior to the expiration date of the parole pursuant to A.R.S. §31-414. Generally, the Parole Division of the Department of Corrections recommends the discharge to the Board because of exceptional performance while on supervision.

PARDON (A.R.S. §31-441, 31-442, 31-443, 31-444, 31-445, 31-446) An act of grace or a remission of guilt, which absolves the convicted felon of the legal consequences of his crime and conviction. A full pardon restores those civil rights which may have been lost as a result of the conviction for which the pardon is granted. A pardon cannot be granted by the Governor unless it has first been recommended by the Board (A.R.S. §31-402).

REPRIEVE (A.R.S. §31-443, 31-444, 31-445, 31-446) A delay or temporary suspension of the carrying out of punishment. The Governor may only grant a reprieve upon recommendation of the Board (A.R.S. §31-402).

COMMUTATION OF SENTENCE (A.R.S. §31-411, 31-443, 31-445, 31-446) A change or modification of a sentence imposed by the court. The Board assumes that sentences imposed by the court are fair and correct; however, sometimes circumstances occur during incarceration which indicate that justice would be better served if a commutation were recommended to the Governor. The Governor may only grant a commutation of sentence upon recommendation of the Board (A.R.S. §31-402).

**RESCISSION** a withdrawal of an action previously granted by the Board before the inmate actually enters the action status.

REVOCATION (A.R.S. §31-415, 31-416, 31-417) A withdrawal of an action previously granted by the Board after the inmate has entered the action status.

MODIFICATION A hearing held to determine if conditions of release should be modified or changed. A modification hearing is usually held at the request of a parole officer.

DOMESTIC VIOLENCE REVIEW (42ND Legislature, HB2293, Ch. 234, §1 and 43<sup>RD</sup> Legislature, HB2106, Ch. 212) A review by the board after it has been determined that a petition received by the board meets all eligibility requirements prescribed in A.R.S. 31-403.

The Board used SDM in 66.1 percent of the hearings that resulted in denials. Of those releases denied that used SDM (2196 cases), 51.0 percent of the decisions fell within and 49.0 percent fell outside the guidelines.

REPORT PREPARED BY THE RESEARCH DIVISION MANAGEMENT ANALYST: KATHLEEN ABBOTT JULY 3, 1997

ARIZONA BOARD OF EXECUTIVE CLEMENCY FISCAL YEAR STATISTICAL REPORT FISCAL YEAR 1996-97

The Board offered the reasons below when a decision to deny fell outside the guidelines. The Board used these reasons in various combinations. Some reasons occurred more frequently than others. This explains why the summation of these figures exceeds the actual number of releases denied outside the guidelines.
