THE HONORABLE JANE D. HULL
Governor of the State of Arizona

and

MEMBERS OF THE FORTY-THIRD LEGISLATURE

The Arizona Board of Executive Clemency has experienced a challenging year. The reduction of the Board from seven to five members and the elimination of staff positions have added to the challenges we face. However, we continue to strive for professional excellence in meeting our statutory requirements. Our ability to successfully manage these challenges can be attributed not only to the loyalty, dedication and commitment of the Board members and staff, but to your continued support.

The Truth-In-Sentencing legislation, enacted in January, 1994, continues to impact the number of hearings held by the Board. From FY97 to FY98, the Board experienced a 29.5 percent reduction in the number of discretionary release hearings held. Interestingly though, since the enactment of Truth-In-Sentencing, the Board experienced a significant increase in the number of revocations and commutation hearings. During FY97 to FY98 revocation hearings increased over 20 percent and commutation hearings over 51 percent. Truth-In-Sentencing revocations accounted for almost 43 percent of all revocations hearings and 82 percent of all commutation hearings held.

As we prepare to move into the Year 2000, we continue to review our mission of assuring public safety. Also, I believe that the men and women of the Arizona Board of Executive Clemency will continue to move forward and provide the type of quality service expected of this organization.

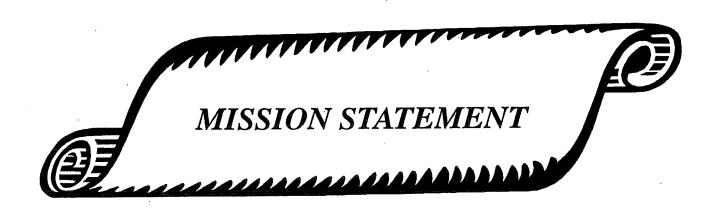

On behalf of the Arizona Board of Executive Clemency, I have the honor of submitting this Annual Report for Fiscal Year 1997-1998.

Respectfully submitted,

Pdward M. Leyva Chairman

The mission of the Arizona Board of Executive Clemency is to assure public safety by releasing only eligible inmates and send to the Governor only those Executive Clemency recommendations which are in the best interest of the citizens of Arizona.

HISTORY OF THE ARIZONA BOARD OF EXECUTIVE CLEMENCY

Change and adaptation best characterize the history of the Arizona Board of Executive Clemency. The state of Arizona first afforded inmates the opportunity for parole in 1901. The **Board of Control** functioned as the state's discretionary releasing mechanism and consisted of the Governor; Territorial Auditor; and one citizen appointed by the Governor. The **Board of Control** retained its releasing authority until the first Criminal Code became effective in October of 1913.

In 1913, the Legislature established the **Board of Pardons and Paroles**, which assumed the discretionary releasing function of its predecessor, the Board of Control. Board membership consisted of a citizen appointed by the Governor to serve as Board chairperson; the Superintendent of Public Instruction; and the Attorney General. Board composition remained unchanged for the next five decades.

The Legislature expanded Board membership to five part-time members in 1966. The Governor appointed all members to five-year terms. In 1968, the Legislature amended this expansion and created a Board comprised of three full-time members. The Governor appointed all members to three-year terms. All appointments, however, became subject to Senate confirmation. A full decade passed before the Board experienced change in its composition.

In 1978, the Legislature increased Board size to five full-time members. The Governor appointed all members to five-year terms, and appointments remained subject to Senate confirmation. This legislative action coincided with the passage of the new Criminal Code.

The Legislature again expanded Board membership to seven full-time members in 1984. This figure represents the number of members who currently sit on the Board. The Governor continues to appoint all members to five-year staggered terms. All appointments remain subject to Senate confirmation.

In 1993, Legislation passed which eliminated all Board releases for inmates whose offense was committed after January 1, 1994. In addition, the Board's name changed from **Board of Pardons and Paroles** to the **Board of Executive Clemency**.

In 1997, Legislation passed which decreased the membership of the Board from seven to five members. This change became effective in January, 1998.

Arizona Revised Statutes § 31-401 and subsequent sections detail the operating authority and duties of the Arizona Board of Executive Clemency.

Board Members for the Period July 1, 1997 - June 30, 1998

DUANE BELCHER, SR., a resident of Tucson, Arizona, was appointed as Board Chairman in September 1993 and served in that capacity until February, 1997. Mr. Turley has been married to Cleo Olson for fifty years. They have seven children and twenty-eight grandchildren.

ORGANIZATION OF THE ARIZONA BOARD OF EXECUTIVE CLEMENCY

The six Board Members are supported by a full-time staff. The staff is comprised of:

Executive Director - The Executive Director is responsible for the administrative, operational and financial functions for the Board.

Assistant Executive Director - The Assistant Executive Director is the direct supervisor of the hearing officers, case analysts and support staff.

Management Analyst II - The Management Analyst is responsible for implementation and monitoring of structured decision making, maintaining statistical data on hearings conducted by the Board, and serves as computer network administrator.

Program and Project Specialist II - The Program and Project Specialist II drafts policies and procedures, is the Board's public, legislative and Attorney General liaison, and provides research on law suits involving the Board for the Attorney General's Office. Writes the Agency's strategic plan, annual report, and completes special projects.

Accountant - The Accountant is responsible for all personnel actions, preparing and monitoring the Agency's budget, and control of expenditures of the Agency.

Hearing Officers - The Hearing Officers conduct probable cause hearings for rescission and revocation actions, provide information to the Board for all Executive Clemency actions and prepare reports for inmates certified eligible for other release consideration.

Case Analyst (Administrative Assistant III) - The Case Analysts gather information and prepare reports for the Board's use when considering inmates certified eligible for parole, work furlough, home arrest and absolute discharge.

Administrative Support Supervisor II and Administrative Support Supervisor I - The Administrative Support Supervisor II and Administrative Support Supervisor I are responsible for the supervision of the clerical staff. Additionally, the Administrative Support Supervisor II is the problem solving liaison for the Board in matters involving time computation and inmate eligibility.

Administrative Assistant II - The Administrative Assistant II is responsible for processing personnel and fiscal actions, responding to written and telephonic inquiries received. This position also creates the monthly hearing calendar and makes travel arrangements.

Legal Secretary I - This position provides administrative and secretarial support for the Special Hearings Unit in processing applications for executive elemency actions, requests for revocation and/or rescission of parole, work furlough, home arrest or community supervision.

Clerical Support Positions - The Clerical Support staff provide clerical support to the Board, process packets the Board uses in making release decisions, complete dispositions and proclamations for decisions made by the Board and provide statutorily mandated notifications prior to Board hearings and maintain file room.

PAROLE GUIDELINES AND STRUCTURED DECISION MAKING

Structured Decision Making (SDM) involves the guidelines that provide the Board with a common framework in which to make decisions. SDM guidelines consist of explicitly stated goals; policy statements; and measurement instruments designed to systematically assess an inmate's suitability for release. Risk Assessment and Offense Severity function as two of the core components of SDM.

I. Risk Assessment

The **risk assessment** component assesses the **likelihood** that an inmate **may** commit a new felony offense while on a Board release. While no Board member or measurement instrument can predict an inmate's future behavior with total confidence, the best measure of the future still remains the past. As such, the Board conducted a study on 1988 releases to identify those factors predictive of success or failure on release. Four factors emerged as significant predictors of success or failure. These factors include:

- (1) Age at First Juvenile Incarceration
- (2) Current Age at Time of Hearing
- (3) History of Property Offenses
- (4) ADOC Institutional Risk Score

The combination of these factors results in a score that indicates an inmate's likelihood to commit a new offense once released. The higher the risk score, the greater the likelihood to re-offend. Board analysts score inmates for risk and place them into one of four risk assessment groups.

II. Offense Severity

The offense severity component involves an initial determination of an inmate's most serious offense behavior, and the subsequent placement of this offense behavior into one of eight severity levels. The most serious offense behavior reflects what the offender actually did. Board analysts determine the most serious offense behavior based on official documents that depict the actual offense behavior. Official documents include pre-sentence investigation reports; police reports; court documents; and any additional probation/parole officer reports. The Board, however, makes the ultimate determination of the most serious offense behavior. Inmates will have the opportunity to provide information as it pertains to the most serious offense behavior.

After considerable discussion, the Board reached a consensus on the placement of offense behaviors into eight severity levels. Level of victimization and amount of property or drugs involved in the offense functioned as primary criteria for the ranking of offense behaviors.

Severity level 1 contains the most serious offense behaviors and severity level 8 contains the least serious offense behaviors. Board analysts locate the corresponding severity level for the most serious offense behavior.

Board analysts then enter the risk assessment group and the offense severity level on the Guidelines Classification Matrix. Each cell on the matrix contains a percentage that Board analysts apply to the conviction sentence length. They use this percentage to calculate the amount of additional time, if applicable, an inmate may need to serve beyond his or her release eligibility date to be within the SDM recommended time frame for release.

The Board uses SDM guidelines for all hearings **except for** revocation and rescission hearings; Executive Clemency recommendations; those inmates whose offense behavior or conviction offense is of a sexual nature; and those inmates whose conviction offenses include first or second degree murder (A.R.S. §13-1105 and 13-1104, respectively).

NEW LEGISLATION EFFECTING THE ARIZONA BOARD OF EXECUTIVE CLEMENCY

In 1996 HB 2283 Domestic Violence Review was enacted requiring the Board to review the sentence that was imposed on inmates who were involved in domestic violence situations and were convicted of a violation of title 13, chapter 11 before September 30, 1992.

Inmates who are incarcerated under the jurisdiction of the state department of corrections must meet all of the initial eligibility requirements set forth in laws 1996, Chapter 234, § 1 and law 1997, Chapter 212, § 1.

Once eligibility has been determined, the hearing is conducted and the Board determines whether to recommend a Commutation of Sentence to the Governor.

The Board of Exeucitve Clemency shall complete all reviews brought pursuant to these sections by June 30, 1998. Section 31-403, Arizona Revised Statutes, as added by section 1 of this act is repealed from and after December 31, 1998.

In the general election in 1996, proposition 200 was passed. The Board held 84 hearings to consider inmates for release under this proposition.

TYPES OF HEARINGS CONDUCTED BY THE BOARD

GENERAL PAROLE (A.R.S. §31-412.A) A conditional release from incarceration which entitles the parolee to serve the remainder of the parolee's term outside the confines of a penal institution if the parolee satisfactorily complies with all the terms and conditions provided in the parole order.

PAROLE TO A CONSECUTIVE SENTENCE OR ANOTHER JURISDICTION (A.R.S. §31-412.B) A mechanism to parole an inmate to a consecutive sentence to be served in an institution or parole to another jurisdiction.

EARLY PAROLE (A.R.S. §41-1604.11.K) A conditional release from incarceration before the inmate has reached their general parole eligibility date. This type of release consideration is used when there is a lack of bed space within the Department of Correction's institutions. An inmate eligible for release under this statue may be considered for parole, home arrest or work furlough.

HOME ARREST (A.R.S. §41-1604.13) A program for those immates who are eligible to complete their prison sentence in the community. The Home Arrest program is a restrictive program designed to confine an immate to their residence using active electronic monitoring surveillance and the supervision of a Home Arrest officer. A person in the Home Arrest Program is under immate status and subject to all of the rules and regulations of the Department of Corrections. Except for authorized movements out of the residence, such as employment and mandated treatment programming, the immate is confined to his residence.

WORK FURLOUGH (A.R.S. §41-1604.11) A release from prison which allows the inmate to maintain gainful employment and pay restitution to the victim of the inmate's offense.

ABSOLUTE DISCHARGE FROM PAROLE (A.R.S. §31-411 & 31-414) The Board may discharge a person from parole supervision prior to the expiration date of the parole pursuant to A.R.S. §31-414. Generally, the Parole Division of the Department of Corrections recommends the discharge to the Board because of exceptional performance while on supervision.

PARDON (A.R.S. §31-441, 31-442, 31-443, 31-444, 31-445, 31-446) An act of grace or a remission of guilt, which absolves the convicted felon of the legal consequences of their crime and conviction. A full pardon restores those civil rights which may have been lost as a result of the conviction for which the pardon is granted. A pardon cannot be granted by the Governor unless it has first been recommended by the Board (A.R.S. §31-402).

REPRIEVE (A.R.S. §31-443, 31-444, 31-445, 31-446) A delay or temporary suspension of the carrying out of punishment. The Governor may only grant a reprieve upon recommendation of the Board (A.R.S. §31-402).

COMMUTATION OF SENTENCE (A.R.S. §31-411, 31-443, 31-445, 31-446, 13-603.L) A change or modification of a sentence imposed by the court. The Board assumes that sentences imposed by the court are fair and correct; however, sometimes circumstances occur during incarceration which indicate that justice would be better served if a commutation were recommended to the Governor. The Governor may only grant a commutation of sentence upon recommendation of the Board (A.R.S. §31-402).

RESCISSION a withdrawal of an action previously granted by the Board before the inmate actually enters the action status.

REVOCATION (A.R.S. §31-415, 31-416, 31-417) A withdrawal of an action previously granted by the Board after the inmate has entered the action status.

MODIFICATION A hearing held to determine if conditions of release should be modified or changed. A modification hearing is usually held at the request of a parole officer.

DOMESTIC VIOLENCE REVIEW (42ND Legislature, HB2293, Ch. 234, §1 and 43RD Legislature, HB2106, Ch. 212) A review by the board after it has been determined that a petition received by the board meets all eligibility requirements prescribed in A.R.S. 31-403.
